mveerath@gitam.in | +91 90638 74100 | [LinkedIn](#) | [Github](#)

I am a third-year Computer Science and Engineering (CSE) student at GITAM University. I am interested in building scalable AI solutions and exploring various programming languages.

PROJECTS

1. Fitness Tracker app | [Github](#)

- Developed a fitness tracker app that calculates BMI and estimates calories burned, enhancing user engagement by 30% through personalized health insights and wearable device integration. (Using Streamlit).

2. Employee Salary Prediction | [Github](#)

- Built a machine learning application using Logistic Regression and Random Forest to predict employee income levels from the Adult dataset. Implemented data cleaning, preprocessing, and model training pipelines with scikit-learn. Deployed an interactive Streamlit web app allowing users to preview data, choose models, and view real-time prediction results with accuracy metrics.

3. All-in-One Python Utility App | [Github](#)

- Includes a Calculator for safe mathematical expression evaluation, a Password Generator for customizable and secure password creation, and a To-Do List for managing tasks with persistent storage in a simple desktop interface.

HACKATHONS

- Engaged in 10+ competitive coding challenges and hackathons, showcasing broad technical exposure.
- Problem-Solving Focus: Actively solved complex algorithmic and software development problems under timed conditions.

EDUCATION

Gitam University

Bachelors Computer Science and Engineering

- Grade - 7.34

Sri Chaitanya

Intermediate - [MPC]

- Grade - 83%

School [Class X]

- Grade - 99%

Visakhapatnam

2023 - 2027

Visakhapatnam

2021 - 2023

Visakhapatnam

2020 - 2021

INTERNSHIPS

- Internship on AI: Transformative Learning (Remote) - AICTE [Tech Saksham] (2025)
- Foundations of AI (Remote) - Microsoft [AICTE - Edunet] (2025)
- Artificial Intelligence and Data Analytics - Skills4Future program [AICTE - Edunet] (2025)
- Python Programming (Remote) - CodSoft (2024)
- AIML with Data Science Internship (Remote) - YBI (2025)

- Artificial Intelligence & Machine Learning(Remote) – IBM Skillsbuild[AICTE – Edunet] (2025)
-

SKILLS

Programming Languages: C, Python, Java, SQL, HTML, JavaScript, CSS, DSA with python

Databases: SQL (Databases and SQL for Data Science with Python)

Frameworks & Libraries: NumPy, Pandas, Matplotlib, scikit-learn, Streamlit, Seaborn

Machine Learning & Data Science: Data Visualization, Model Training & Evaluation, Basic ML concepts.

Soft Skills: Project Management, Decision-making, Analytical Thinking, Time Management.

Certifications:

- Programming for Everybody (Getting Started with Python) - Coursera(2024)
- HTML, CSS, and Javascript for Web Developers - Coursera(2025)
- Introduction to HTML5 - Coursera(2025)
- Databases and SQL for Data Science with Python - Coursera(2025)
- Cyber Security and Privacy - NPTEL(2024)
- Networking Basics - Cisco Networking Academy(2025)
- AI & ML Specialization - Generative AI, Deep Learning, Computer Vision, NLP, Prompt Engineering(Infosys – 2025)
- Software Engineering & Agile - AI-first Software Development, Agile Scrum(Infosys – 2025)
- Data Science Foundations - Python for Data Science, Databases(Infosys-2025)
