moukthikaveerathu@gmail.com | +91 90638 74100 | [LinkedIn](#) | [Github](#)

I am a third-year Computer Science and Engineering (CSE) student at GITAM University. I am interested in building scalable AI solutions and exploring various programming languages.

PROJECTS

1. Fitness Tracker app | [Github](#)

- Developed a fitness tracker app that calculates BMI and estimates calories burned, enhancing user engagement by 30% through personalized health insights and wearable device integration.

2. Employee Salary Prediction | [Github](#)

- Built a machine learning application using Logistic Regression and Random Forest to predict employee income levels from the adult dataset. Implemented data cleaning, preprocessing and model training pipelines with scikit-learn. Deployed an interactive Streamlit web app allowing users to preview data, choose models and view real-time prediction results with accuracy metrics.

3. All-in-One Python Utility App | [Github](#)

- Includes a Calculator for safe mathematical expression evaluation, a Password Generator for customizable and secure password creation and a To-Do List for managing tasks with persistent storage in a simple desktop interface.

EDUCATION

Gitam University

Visakhapatnam

Bachelors Computer Science and Engineering

2023 - 2027

- Grade - 7.36

Intermediate – MPC

Visakhapatnam

- Grade - 83%

2021 - 2023

School [Class X]

Visakhapatnam

- Grade - 99%

2020 - 2021

SKILLS

Programming Languages: C, Python, Java, SQL, HTML, JavaScript, CSS, DSA with python

Databases: SQL (Databases and SQL for Data Science with Python)

Frameworks & Libraries: React, Express js, NumPy, Pandas, Matplotlib, scikit-learn, Streamlit, Seaborn

Machine Learning & Data Science: Data Visualization, Model Training & Evaluation, Basic ML concepts.

AI skills: Generative AI fundamentals, LLMs, Prompt Engineering, Text generation, NLP basics, Ethical AI.

INTERNSHIPS

- AI Internship (Virtual) – Infosys (2025)
 - Internship on AI: Transformative Learning (Virtual) - AICTE [Tech Saksham] (2025)
 - Foundations of AI (Virtual) - Microsoft [AICTE - Edunet] (2025)
 - Artificial Intelligence and Data Analytics - Skills4Future program [AICTE – Edunet] (2025)
 - Artificial Intelligence & Machine Learning (Virtual) – IBM Skills build [AICTE – Edunet] (2025)
 - Front End Web Development Internship (Virtual) - AICTE (2025)
-

Certifications

- AI & ML Specialization
- Software Engineering & Agile
- Data Science Foundations
- Programming for Everybody
- HTML, CSS and JavaScript for Web Developers
- Databases and SQL for Data Science with Python
- Cyber Security and Privacy
- Networking Basics
